

## Supatato by Sue Hendra

For those unable to access the book via Youtube, here's a quick review.

Supatato is a super hero to his fellow vegetables.

The action takes place in a supermarket and one night, strange things happen to the vegetables. Carrot has been taped to the conveyor belt, broccoli has had his face drawn on and cucumber has been bandaged up!

Evil pea has escaped from the freezer, looking for trouble and he's a very, very naughty pea!!

Can Supatato save the day??

Supatato used his super speed and super strength to help save the vegetables. He crept through the cheese and the cakes but Evil Pea wasn't finished! Supatato was about to be mashed but Supatato managed to trap Evil Pea in the jelly!!

Supatato **had** saved the day!! Evil Pea was marched back to the freezer. Check your freezer in case there's an escaped pea in your house!!!
